## At Norway Corn Shop.

Saturday afternoon, a few huskers were stripping the leaves from the remaining ears of corn and the corn packing season is about to be over. The factory has had a successful season, most of the time under direct supervision of James L. Dyer of Portland, a member of the H. F. Webb Co., owners of the factory.

During the can making and packing seasons, D. M. French of Leeds has been superintending, having general oversight of all the work and taking direct charge of the interior of the shop. He has been assisted by F. P. Allard of Conway, N. H., a fine man who inspected the growing corn and gave the orders for delivery to the packing house, and by Frank P. Towne of Norway who has looked after the husking.

The packing of beans will continue for a week or more longer. The beans are put in the cans by hand, no successful device being known for putting them in the cans by machinery without crushing and spoiling a good many beans.

They will close the season here with a run of packing apples.

The total pack of the shop for this season will amount to 550,000 cans.

## Fall Term of Norway Schools.

The twelve rural schools have 141 scholars, an average of 11.75 per school. The twelve teachers are paid \$72.00 per week for all of them, an average of 6 cents per week for each scholar.

The village schools began on Monday morning with 413 scholars in attendance. The eleven teachers are paid wages amounting to \$118.40 per week, an average of 28 cents per week for each scholar.

The figures give the tuition expense. The school books and appliances, heat, janitor service and incidentals are to be also reckoned, but the fact is that it is economy to have schools as large as a teacher can handle. The scholars are divided as follows among the different village schools with teachers named:

91 in high—Albert M. Rollins, Sarah L. Staples, Grace B. Holden.  
22 in eighth and eighth grades—Agnes E. Sanborn.  
22 in seventh grade—Jessie L. Dinsmore.  
30 in sixth grade—Gladys B. Wescott.  
28 in fifth grade—Mary E. Grier.  
34 in fourth grade—Cora Belle Sheild.  
51 in third, second and first grades, middle primary—Hattie E. Grier.  
30 in lower primary—Gertrude O. Gardner.  
46 in upper primary—Morcy E. Millett.

The rooms are crowded. In Miss Sanborn's school, settees are used for part of the scholars and there are more any way than one teacher ought to be asked to handle. It would also seem as if another primary teacher is needed. The fact is that the town is confronted with the problem of how to furnish more school-rooms for their children. Not only are more rooms needed because the present schools are too large for one teacher to handle, but the rooming is not large enough for proper ventilation with so many children in attendance.

Rev. John A. Harding will go to Charlesstown, Mass., next week, where he has accepted a call to be associate pastor of the first Baptist church.

That's you and your wife and the baby. Just a nice little family, and not one could be spared. Now, if about this time your wife seems a little dull and tired and not quite so "chippier" as she used to be, don't think she means to be funny. It is probably just because she feels weak and tired out. If you ask her, she won't confess that anything troubles her, but, just the same, she undoubtedly has headaches, backaches, dyspepsia or some other symptoms of KIDNEY AND BLADDER TROUBLE. Now, when you go home tonight, step into the drugist's and buy a bottle of

**Dr. David Kennedy's Favorite Remedy** for \$1.00 and take it home with you. Tell her you know it will do her good and make the baby better, and she will try it to please you. After a few doses she will feel so much better that whenever any one of you three don't feel just right, she will be the first one to run to the medicine closet for the Kennedy.

It's just as good for a woman or a child as for a man. It is pleasant to take, and will stop at once all the little ailments which are the forerunners of KIDNEY AND BLADDER TROUBLE. Have a bottle in the house anyway.

Some of our neighbors have had very beautiful flowers in their yards, the past summer. Mrs. S. L. Moody and the Misses Butters displayed some that were lovely until the frost dimmed their brilliancy.

Memorial Services.  
Thursday was observed in this town as a holiday out of respect to our dead President. Memorial services were held at the Congregational church at 10.30 a. m. Short addresses were given by the pastor, A. G. Fitz, and Rev. Harri- man. The choir sang America. Lead- ing Light and Nearer My God to Thee.

McKinley's picture was placed at the left of the pulpit, Garfield's in front. The first was draped in mourning, and then the Stars and Stripes were artistically arranged about it. Garfield's was draped in black, but as a picture of Lincoln was not found until late, it lacked the decoration which the others had.

Several city boarders at Elms Inn. Cornshop will probably finish packing corn, Wednesday.

G. A. E. Encampment.  
On the 18th of this month, there was an encampment of the G. A. R., at this place. The music of fife and drum and were given a hearty welcome all around. There were many good speeches given during the afternoon and it was a day to be long remembered.

Our friend and former Oxford County neighbor, Alvah Eastman of St. Cloud, Minn., sends us a copy of the harvest edition of the Daily Journal-Press of which he is editor-in-chief. His work has so increased that he will be obliged to again enlarge his studio. Specimens of his work are exhibited at the Pan-American by the Grand Trunk Company, who are particularly pleased with the process. It is possible that Mr. Nash may attend the Chicago sportsmen's show, and he will be at the Boston and New York shows in the spring, where he made a decided hit, last March. **Letter to John F. Sampson,**  
Norway, Me.

Dear Sir: Lead and oil is no longer the paint to be prosperous with.

As everybody knows, lead and oil chalks or powders off in about three years—three years is its limit.

Painters are putting a little zinc in their lead to make it tough—it lasts a good three years with a little zinc.

But painters don't like the job of mixing zinc. It's a tedious job, and, both being white, nobody knows when the mixing is thorough. It gets half-mixed, and the paint goes on, a streak of lead and a streak of zinc. That is not good work.

The mistake made is in trying to do by hand what is better done by machinery. Hand-work can't compete with machine-work.

Devote lead and zinc to your paint. It wears twice as long as lead and oil. This reduces the cost of keeping a house well painted to half.

Yours truly,  
F. W. DEVOE & CO.

**After the Fair was Over.**  
Saturday, the grounds seemed deserted. Cattle all gone, sheep all gone, hogs all gone; dirt, old cardboard boxes, and loose paper everywhere. The tumult and the shouting of drivers and spectators had all died away. A few horses remained and of course a few of the horsemen.

Four fakirs had not gone, but they were packing up. Heath will take a vacation with his merry-go-round and start it at North Waterford fair. Dow was the richer by six cents picked up on the ground. Elwell started for Canton with his frankfurter outfit. He says that the fair of 1901 was much the best one for his business that he has ever attended here.

The officers were holding a meeting in their room at the hall. The exhibition hall was dirty and cluttered like the grounds. A few of the exhibits had not been removed. A small but pretty bouquet was picked out of the remnants of flowers and brought back to adorn our sanctum.

Everywhere, after the noise and the crowds of three days, the premises seemed deserted and we felt lonesome. Good-bye to the Oxford County fair till 1902.

The shock shop will soon be in operation.

Mrs. Mary A. Bucknam of Fryburg was shopping in Portland, Saturday, and lost a pocketbook containing about \$24 and a return ticket home. She reported her loss to the police station, but they were unable to find it for her and she was obliged to borrow money to go home with. Mrs. Bucknam thinks the pocketbook was stolen from her.

Secretary Long denies that he has any intention of retiring from the Cabinet and Secretary Hay says he will remain as long as his health and strength permit. There have been no rumors that any other member contemplates resigning, so that we may assume, that barring accidents, President McKinley's Cabinet will serve out President Roosevelt's term.

**Eggs Served in Various Ways.**

Eggs, although so closely related to meats in their food value are better adapted to the full round of seasons than the flesh of animals. In the early spring they begin to grow more plentiful and from then on until the appetite again inclines toward the grosser meats, the markets are generally provided with an abundant supply of good fresh eggs.

An egg, of all foods, must be above suspicion, for the senses once offended by an ill-conditioned egg will never forgive the offender.

Eggs play a very important part in cooking aside from their employment as the principal dish of the meal and taking the place of meats, as they enter into an infinite variety of different dishes.

But considering them only as meat dishes we have a bewildering list to choose from so that if we cared to serve them more frequently than meats on our daily bill of fare it would take us a long time to exhaust the list. For breakfast dishes especially, we have a delightful assortment.

**The Way to Boil an Egg.**  
From a housekeeper whose experience joined with common sense, has brought her much valuable knowledge, comes this bit of knowledge: The way to boil an egg is not to boil it at all. This may seem paradoxical, but is nevertheless true. Put the eggs in a wire basket with a handle, the frying basket will answer; then set the basket in a boiler and cover the eggs well with perfectly cold water, not warm or hot, but cold water; set the boiler over the fire where the water will heat quickly and let the water just come to a boil, but it must not boil at this particular time—not a moment later or sooner—remove the basket from the water and the eggs will be cooked just as they should be; spread a large dolly on a heated dish; lay the eggs on it, fold the corners of the dolly over the eggs and serve at once. Follow the directions to the letter, and when the eggs are broken and turned out of the shell, a la Americain, they will roll out like balls of jelly leaving the shell clear and clean, the egg thoroughly cooked, tender and delicate.

**Cupped Eggs.**  
Butter the requisite number of egg cups and carefully break a fresh egg into each; set the cups in a strainer over boiling water and cook until the whites are turned and set. Drop a bit of sweet, fresh butter on top of each and shake a pinch of minced parsley over the butter; serve at once.

**Scalloped Eggs.**  
Moisten a cup of stale bread crumbs with cream or rich milk; put a layer in the bottom of a buttered dish; cover with a layer of sliced hard-boiled eggs; lay over bits of butter; season with white pepper and salt. Continue until the dish is filled; cover the top with fine bread crumbs moistened with butter and set in the oven to brown. Serve with cream sauce.

**Runned Eggs.**  
Break six eggs into a bowl; add a teaspoon or melted butter, a tablespoon of milk, or two tablespoons of cream instead of butter and milk, and beat together until thoroughly mixed; then turn into a saucepan; set over boiling water and stir until the eggs are thick and creamy, season with pepper and salt and pour over hot buttered toast; garnish with a few sprigs of parsley and serve white hot.

**Egg Cutlets.**  
Boil half a dozen eggs for at least 20 minutes; shell and cut them into lengthwise slices; when perfectly cold dip each slice into beaten egg seasoned with salt and pepper; then cover completely with bread crumbs in which has been mixed a little minced parsley. Fry these cutlets in hot fat sufficient to float them; arrange them on a hot dish with slices of grilled or pan-fried tomatoes and serve with bechamel sauce.

**Fricassee Eggs.**  
Hard-boil six eggs. Put two level teaspoons of butter in a saucepan; when melted add two of flour and stir until smooth; add a cup of gravy or stock; season with salt and pepper to taste; add two minced mushrooms and a sprig of parsley minced; let the mushrooms cool for five minutes in the sauce if they are canned; if fresh cook them in the butter before the flour goes in. When the sauce is made slice the hard-boiled eggs
